

## Slow Dance

Arcane Roots

Even as your darkness comes to life  
I'll see you in the early morning light  
Even as our hearts, they ebb and flow  
Never did I dance with you so slow

So even as the darkness comes to life  
I stood out in the dawn right by your side  
Even though I can't pretend to know  
Never have I danced with you so slow

And even though you can't help letting go  
And swallowing the tears before they show  
I know I'll never ever know  
Baby I will dance with you so slow

All the things we had we gave away  
Dancing to our pulses as they fade  
Slow, hand in hand  
But can't you feel the same things I can?

Lined upside down  
This has now happened as you fell  
Raise your voice 'til I can hear no sound  
'Til it's close enough to tell

All the things we had we gave away  
Dancing to our pulses as they fade  
Slower, hand in hand  
But can't you feel the same things I can?

All the things we had we gave away  
Dancing to our pulses as they fade  
Closer to the end  
But can't you feel the same things I can?  
Can't you feel the same things I can?
