

## Exiled from Earth

Arch Enemy

We're standing face-to-face  
With a century of mistakes  
Our coup de grâce, our exodus  
Embers, coal and rust

We'll never  
We'll never learn  
This time there's no return

Now we are nomads  
With nowhere to go  
Exiled from earth  
Racing extinction  
Sapiens' deathblow  
Once kings, now cursed

Folded time to meet our end  
Murdered our only home  
Too proud to comprehend  
Now Gaia reclaims her throne

We are all  
We're all condemned  
Back into the primordial soup, we descend

Now we are nomads  
With nowhere to go  
Exiled from earth  
Racing extinction  
Sapiens' deathblow  
Once kings  
Once kings, now cursed

Now we are nomads  
With nowhere to go  
Exiled from earth  
Racing extinction  
Sapiens' deathblow  
Once kings  
Once kings, now cursed
