

# The Eagle Flies Alone

Arch Enemy

When I was born the seed was sown  
I will not obey, my life is my own  
Battle those who wish to enslave me  
Expose the lies that enrage me

I don't believe in heaven, I don't believe in hell  
Never joined the herd, could not adjust well  
Slave and master, it's not for me  
I chose my own path, set myself free

I, I go my own way  
I swim against the stream  
Forever I will fight the powers that be

I, I go my own way  
I swim against the stream  
Forever I will fight the powers that be  
The eagle flies alone

Reject the system that dictates the norm  
This world is full of lies and deceit  
I have felt betrayal, cut so deep  
Suffered defeat only to rise again

I, I go my own way  
I swim against the stream  
Forever I will fight the powers that be  
I, I go my own way  
I swim against the stream  
Forever I will fight the powers that be  
The eagle flies alone

Alone!

I, I go my own way  
I swim against the stream  
Forever I will fight the powers that be  
I, I go my own way  
I swim against the stream  
Forever I will fight the powers that be  
The eagle flies alone
