

## The Last Enemy

Arch Enemy

Fearless on my final request  
Find truth beyond the flesh  
Fleeting past my dreams of unfulfilled desire  
My strength unwavering  
My journey just beginning  
A desperate race through the corridors of hell

Chaos emerge - Surrender I will not

The last Enemy Is Falling  
Here I am - To Conquer Death Itself  
The last Enemy Is Falling  
Here I stand - To Conquer Death Itself

Funeral silence beneath the burning cross  
My immortal soul sleeps with the wolves tonight  
Skin and bones that rot my blood runs dry  
See me die to rise with the gods again

Defy... Decay  
Arise Again

Chaos emerges  
Surrender I will not
