

# Ambrosia

## Arch of Hell

We have to eat it and never stop  
(This is our feast)  
When the energy is needed  
(Divine food for gods)  
We'll never grow old and never die  
(Youth and power)  
It makes us forceful and immortal  
(Cannot be denied)

Feed us with might  
What's holding us in the air  
It's the ancient source of life  
It's Ambrosia  
Feed us with might  
Coming from the unknown places  
Our secret which we guard  
It's Ambrosia

We can lead your steps or we can smash you down  
We'll transform to anything and live by your side  
We will live forever, cause we are all divine  
Strong immortals watching upon humankind

/: You cannot eat it  
You cannot taste it  
You cannot drink it  
You won't taste it at all :/
