

Sadness

Arch of Hell

Skys are cover by bloody tears
You were my and no more now
Who took you away? Who should die?
Who should fall?

Say the words, which nobody hear
Scream to a wall, which nobody see
Tears are drops are falling down
Every day round and round

Dakness around me
I stay alone (I can felt...)
Life is left, strength is left
But you can't see

Don't you see?
I am yours
It's better for me?
If I were not yours?

You're crying every day
And don't feel any way
Don't see the end, your fate
Is Sadness and hate...

I loved you
Me too...
But you don't see I was telling the true
I hurted you
Give me reason for this way
Give me reason for my pain

Darkness

Dakness around me

Loneliness

I stay alone (I can felt...)
Life is left, strength is left

Cuz you're lost

But you can't see

Cuz you're dead

Don't you see?

I'm blind

I am yours
It's better for me?

I'm crying on you grave

If I were not yours?

Your way is lost
You are a stray ghost
If you can see, if you can feel,
If you can breath

You're crying every day
And don't feel any way
Don't see the end, your fate
Is Sadness and hate...

I'm dying and you wont help me
Nobody helps me...
I am alone and stay free
One fate is Sandess (I can't breath)

So as you see,
You must see trough the tears
Trough bloody, cruelly tears,
Life is lost in fears...

So, this is the end
We are Lost in our Fate
And destiny is for all
The same...
