

# Fever

Archie Star

I got a fever for you  
And my friends all think I'm crazy  
Yeah, my mother won't talk to me again  
If I take you back to bed  
I got a fever for you  
Look at the family I'll lose  
Just to feel your lips pressed over my chest,  
See you naked in my bed  
And I'll watch you sleep away mistakes we've made

She grew up catholic but I'm barely religious  
Don't you think it's kinda shitty how she sleeps with my friends?  
I got a bad temper, I lose it too fast  
So now I'll light up a cigarette  
And I'll think of the day we met  
And how my life's been burning away since then  
Honey, you'll never get me back like that again

I got a fever for you  
And what am I supposed to do?  
Yeah, I got introduced to this dumb slut  
Who grew up around bad love  
I got a fever for you  
And that crazy shit you do  
Like when you show up at late night at my door  
Like some desperate little whore  
Looking for something I... (don't say it)  
... never gave (that's right I said it)

She grew up catholic but I'm barely religious  
Don't you think it's kinda shitty how she sleeps with my friends?  
I got a bad temper, I lose it too fast  
So now I'll light up a cigarette  
And I'll think of the day we met  
And how my life's been burning away since then  
Honey, you'll never get me back like that again  
No, you'll never get me back like that again

Yeah, I got a fever  
But I'll sweat it out  
It's just me like before  
In my covers right now  
Yeah, I got a fever  
But I'll sweat you out

She grew up catholic but I'm barely religious  
But I think it's kinda funny how I fucked all her friends  
I got a bad temper, I lose it too fast  
So now you light up a cigarette  
And you think of the day we met  
And how your life's been burning away since then  
Honey, you'll never get me back like that again  
No, you'll never get me back like that again  
I just tell it how it is
