

# Let Go

Archie Star

Step outside my feet meet the pavement  
And im alright  
Ladadada

I drive up and i see her outside  
Honey please come back to me just one time

So what  
Are you doing here

You know exactly  
What im doing here

Just let this go  
i can't let gooo

And she's got me screaming  
At night when im dreaming

Hes got me thinking  
Im not good for anything

Look at this mess we've made  
With only ourselves to blame

I know all about your midnight mistakes  
But i play dumb  
Because the truth i can't face

And i know about  
All your mistakes  
Like all of the guys  
You were with on spring break

Come on just stop  
Im so sick of fighting

And i look fine now  
But inside im just dying

Just let this go  
i can't let go

And she's got me screaming  
At night when im dreaming

And he's got me thinking  
Im not good for anything
