

## Ourselves to blame

Archie Star

Step outside  
My feet meet the pavement  
And i'm alright la da da da  
I drive up and i see her outside  
Honey please come back to me just one time  
So what, are you doing here  
You know exactly what i'm doing here  
Just let this go  
I can't let go  
And she's got me screaming  
At night when i'm dreaming  
He's got me thinking  
I'm not good for anything  
Look at this mess we've made  
With only our selves to blame  
I know all about your midnight mistakes  
But I play dumb because the truth I can't face  
And I know about all your mistakes  
Like all of the guys you were with on spring break  
Come on just stop i'm so sick of fighting  
And i look fine now but inside i'm just dying  
Just let this go  
I can't let go  
And she's got me screaming  
At night when i'm dreaming  
He's got me thinking  
I'm not good for anything
