Pull down the moon

Archie Star

I never leave the light on much now,
I got a feeling its maybe time for sleep,
I got the cellular phone, whispering I am alone,
I don't no, but baby it knows that your gone,
Now I'm not thinking enough, and I been drinking too much,
Maybe its time I take my chances,
???, I been right here, you left me,

Now your used to treating me bad cuz it's all that you good at,
And now your sticking around cuz you think that I'll hurt myself right now,

Pull down the moon,
Bring me back to any night with you,
Turn all the lights off in the room,
It's my last chance with you,
(Pull down the moon)
My last chance with you.
(Pull down the moon)

You sound like a liar,
It's all that I'm good at,
But I like your smile, let me see where it goes.
And if it goes and goes, She don't let me know,
And we'll just see where it goes,
And as for treating me bad, cant believe I just said that.
And I remember when we were young and my heart used to skip a beat with your hands all over me,

Pull down the moon,
Bring me back to any night with you,
Turn all the lights off in the room,
It's my last chance with you,
(Pull down the moon)
My last chance with you.
(Pull down the moon)

Pull down the moon,
bring me back to any night with you.
and pull down the moon,
Bring me back, come on and bring me back,

Pull down the moon,
Bring me back to any night with you,
Turn all the lights off in the room,
It's my last chance with you,
(Pull down the moon)
My last chance with you.
(Pull down the moon)
I never leave the light on much now,
I got a feeling it's maybe time for sleep,
I got the cellular phone whispering I am alone,
ohhhhhhhhh ohhh ohhhh,

Carry Me, Carry Me Home...
