

# Doomsday

Architects

Remember when hell had frozen over?  
The cold still burns underneath my skin  
The water is rising all around me  
And there is nothing left I can give  
All these tears I've shed  
I saw the wildfire spread  
You said you cheated death  
But heaven was in my head

They say the good die young  
No use in saying "what is done is done"  
'Cause it's not enough  
And when the night gives way  
It's like a brand new doomsday  
What will be will be  
Every river flows into the sea  
But it's never enough  
And when the night gives way  
It's like like a brand new doomsday  
No matter what they say  
It's like a brand new doomsday  
No matter what they say  
It's like a brand new doomsday

The embers still glow when I'm sober  
The gold in the flame burns brighter now  
I have to rebuild now it's over  
Maybe now I'm lost  
I can live  
Souls don't break - they bend  
But I sometimes forget  
I have to do this for you  
And the only way out is through  
Yeah  
Death is an open door

Words the prophets said  
Still swimming through my head  
Now there's no stars left in the sky  
'Cause this well will never run dry  
What if I completely forget?  
What if I never accept?  
'Cause when you fade away  
It's like a brand new doomsday

They say the good die young  
No use in saying "what is done is done"  
'Cause it's not enough  
And when the night gives way  
It's like a brand new doomsday  
What will be will be  
Every river flows into the sea  
But it's never enough  
And when the night gives way  
It's like a brand new doomsday  
No matter what they say  
It's like a brand new doomsday
