

Fear There & Everywhere

[Archive](#)

Right side, Left side, Dark side
Over my shoulder
They're coming into my space
Taking me over
Into my eyes my ears
Into my thinking
I can't wear this feeling anymore

It's seeping seeping seeping seeping seeping into my bones
It's creeping creeping creeping creeping into my home
Fake this
Fake that
It's so ugly
It's just

Fear there everywhere
Burning inside of me
Fear there everywhere
Killing the light in me
It's just
Fear there everywhere
Burning inside of me
I can't live it
I can't live it no more

Small eyes thick lies black cries
Rolling us over
It's no secret they have
Taken the numbers
Logged in logged out
We stand isolated
I just can't breathe

It's seeping seeping seeping seeping seeping into my bones
It's creeping creeping creeping creeping into my home
Fake this
Fake that
It's so ugly
It's just

Fear there everywhere
Burning inside of me
Fear there everywhere
Killing the light in me
Fear there everywhere
Burning inside of me
I can't live it
I can't live it no

Fear there everywhere
Burning inside of me
Fear there everywhere
Killing the light in me
It's just
Fear there everywhere
Burning inside of me
I can't live it

I can't live it no more

Fear fear fear fear fear...

Fear there everywhere

Burning inside of me

Fear there everywhere

Killing the light in me

It's just

Fear there everywhere

Burning inside of me

I can't live it

I can't live it no more

Fear there everywhere

Burning inside of me

Fear there everywhere

Killing the light in me

It's just

Fear there everywhere

Burning inside of me

I can't live it

I can't live it no more
