

Friend, you bring me down
Friend, there's so much around
Try communicating
Don't anticipate.
Cause I want to run with you,
Cause I want to run with you,
Cause I want to run with you.
And maybe then, we could walk together.

Friend, you're getting paranoid
Friend, you're becoming so destroyed
They all laugh at you
They're all dismissing you.

Cause I want to run with you
And I want to run with you
And I want to run with you
And maybe then we could walk together.

Cause I want to see no pain this time,
Cause I wanna see you shine.
Blind me, blind me, blind me.

Cause I want to run with you
Cause I wanna run with you
Cause I wanna run with you
And maybe then, we could walk together...together....

I'm coming to drag you out, to drag you out
and we can walk together. We can walk together.
