

when everyone agrees with you
you know you're wrong
when everyone embraces you
you don't belong

nothing these days
means what it says
everything's gone grey

takes a life to live to learn
where love comes from
only takes three little words
to know it's gone

nothing these days
means what it says
everything's gone grey

if you don't want to know the score
then just turn away
back to the world where papers burn
and words decay

nothing these days
means what it says
everything's gone grey
