

Smile

Arcwelder

And all you want to do is smile
And take it everywhere you've been
Advice like yours a moral play
I'd walk from hear to here you say
And death's not knowing that your dead
Never life or fear or trial
So you want happiness instead
All you got is just a smile

[chorus]

All you want to do is smile
All you got to do is smile

Can't help the helpless with your help
Can't be the selfless by yourself
Can't turn an inch into a mile
Can't make me happy with a smile

Stood in a forest for the fools
And said what no one wants to hear
A tree that falls without a sound
Take your smile I'll be around

[chorus]
