```
The pit of fear and the roots of fools I took the lies and made them rules If it is over why do I doubt If you don't feel then let me out
```

You can't become a different you Why did I think instead of do With all there is to lose or gain Why do I only see the pain

- 'cause I feel. . . feel. . . feel. . . unknown . . . unknown
- I have no pride for what's been done
- I fought the war that no one won
- I'm guilty of the guilt unclear
- I only wish that you were here
- A fenceless sky for the first time I could not recognize the sign It's how it feels like getting old I hope the universe ain't cold
- 'cause I feel. . . feel. . . I feel. . . feel. . . unknown . . . unknown
