

Full Throttle

Ard Adz

You ain't lived this life, you don't know this pain
So you won't understand me
When Jonezy died, I washed that pain with bottles of brandy
Full throttle for akhi
I jump on the bike, full throttle the Saki
The squabbling wassy
Ten do five, what I've got in the passy
You ain't lived this life, you don't know this pain
So you won't understand me
When Jonezy died, I washed that pain with bottles of brandy
Full throttle for akhi
I jump on the bike, full throttle the Saki
The squabbling wassy
Ten do five, what I've got in the passy

You see champagne
If you look close see the champ's pain
A-Town, that's the campaign
If you look close, see the camp's pain
Fuck college, I've got mad knowledge
Cah the gyal on the block gave mad brain
That's mad uck, catch you on the curb, bad luck
Come a long way from bandos
Sitting down bored with Stanley
Remember when the opps had Rambos
And we ran them down with Stanleys
Had a little line in Brandon and got my trip roll from Dandy's
Caught a little chase in Brandon
Man skid then I hid near Zandy's

You ain't lived this life, you don't know this pain
So you won't understand me
When Jonezy died, I washed that pain with bottles of brandy
Full throttle for akhi
I jump on the bike, full throttle the Saki
The squabbling wassy
Ten do five, what I've got in the passy
You ain't lived this life, you don't know this pain
So you won't understand me
When Jonezy died, I washed that pain with bottles of brandy
Full throttle for akhi
I jump on the bike, full throttle the Saki
The squabbling wassy
Ten do five, what I've got in the passy

One lick and my future changed
One call and my shooter came
One shot then they shoot again
One wrong look and the mood it changed
I've been on this curb, I'll smoke this herb till I lose the pain
They ain't got no sticks or balls so they can't play snooker games
I'm rapping factual, guns on me but I'm acting natural
My gyal get wine and dine, I slap this bine, damage collateral
The whip's slow in auto, fuck that shit man slap it in manual
I handle my business, my hand on the handle
Fuck the opps, they ain't feeling me
They wanna pack me down and start billing me

But I'm in the streets for the industry
From a mini me, man I've been a G
Now they're feeling me in the Philippines
I'm in the streets for the industry

You ain't lived this life, you don't know this pain
So you won't understand me
When Jonezy died, I washed that pain with bottles of brandy
Full throttle for akhi
I jump on the bike, full throttle the Saki
The squabbling wassy
Ten do five, what I've got in the passy
You ain't lived this life, you don't know this pain
So you won't understand me
When Jonezy died, I washed that pain with bottles of brandy
Full throttle for akhi
I jump on the bike, full throttle the Saki
The squabbling wassy
Ten do five, what I've got in the passy
