

been here before

Arden Jones

My love
We've been here before
Had enough
Couldn't take no more
Be honest
We're nearing the end

So let's let
It fade away
Cut a loss
And we turn a page
This time we
Ain't makin' amends

Oh she a
Real hottie
Remember the day she got cold
Smooth sailin' to
Stop signs and pot holes

Two young spirits
Grew up and got old
Everything is inside out

Now we're looking for
Cheap shots and payback
You're life is easy
I hate when you say that
You call me greedy but all the money I made
Was the only thing that made you proud

My love
We've been here before
Had enough
Couldn't take no more
Be honest
We're nearing the end

So let's let
It fade away
Cut a loss
And we turn a page
This time we
Ain't makin' amends

Think I need a little me time
Baby can't you see I'm
Trying to separate
See you later
Throw a peace sign
I ain't trying to wait
For the changes that you said you'd make
Maybe last year I would
But now it's way too late

I'm on eggshells
Even if I'm paid well

I still can't afford the way she whine
And make my days hell
Used to make jokes
Talk about going away for good
Now I ain't jokin'
Really wish you would

My love
We've been here before
Had enough
Couldn't take no more
Be honest
We're nearing the end

So let's let
It fade away
Cut a loss
And we turn a page
This time we
Ain't makin' amends
