

count me in

Arden Jones

So I press send
I've been running outta options
But baby if you wanna be friends
Then maybe we could get to talkin'
And I was boutta say that
Hey
I've been working on my own things
But maybe you could make me stay
I got a feelin' when the phone rings
That I'ma be answering
I been patient working on myself and
I could use a little hand for help but
Well I don't know if I could be that for you
I wanna be but I can't be sure yet
Maybe I could go and change your mind and
We'd go dancing through space and time and
I can't lie to you that sounds nice yeah
I saw stars when your eyes met mine

If I get one chance
To tell her that I love her, then I'm gonna be fine
If he holds my hand
I think I might just lose my mind
If I get one chance
Then we'll be with each other 'til the end of time
Don't think, just dance. It goes like-
(1, 2, 3, 4)

Count me in, gotta let me know
You can take my hand, never let it go
We can switch our plans, switch off our phones
If you count me in like
(1, 2, 3, 4)
Count me in, gotta let me know
You can take my hand never let it go
We can switch our plans, and jump right in
If you count me in like
(1, 2, 3, 4)

Fine
There's nothing I can hold in
You're the sun when the sun don't shine
And everything you touch turns golden
And I wanted you to know that
Little bit of trust
I swear it's all I want and
I hope I could be everything you thought of
I was sober 'til you woke me up now
I'm hungover
I've been drunk on love

If I get one chance
To tell her that I love her, then I'm gonna be fine
If he holds my hand
I think I might just lose my mind
If I get one chance
Then we'll be with each other 'til the end of time

Don't think, just dance. It goes like-
(1, 2, 3, 4)

Count me in, gotta let me know
You can take my hand, never let it go
We can switch our plans, switch off our phones
If you count me in like
(1, 2, 3, 4)

Count me in, gotta let me know
You can take my hand never let it go
We can switch our plans, and jump right in
If you count me in like
(1, 2, 3, 4)

Count me in, gotta let me know
You can take my hand never let it go
We can switch our plans, and jump right in
If you count me in like
(1, 2, 3, 4)
