Arden Jones

Everything was cool and then I lost her  
I feel like a monster feeding on the loss and the lows like  
Never get attached it'll cost you more than you can spend  
Everything was fine and then we faded  
Thought that we could make it  
Just a couple lost dark souls like  
Half a second saying "see you later"  
Was it all pretend?

First lie you told was you had my back  
Second was the one tellin' me we'd last  
And third is the worst 'cause you said I was meant for you

I'm so indigo  
Feelin' blue without you here  
I've been miserable  
Since the day you disappeared  
My love ever since you left  
Every exhale feel like my last breath said  
I'm so indigo

I've been sinking  
You would let me drown 'fore you help me float  
Leave me for dead

First lie you told was you had my back  
Second was the one tellin' me we'd last  
And third is the worst 'cause you said I was meant for you

I'm so indigo  
Feelin' blue without you here  
I've been miserable  
Since the day you disappeared  
My love ever since you left  
Every exhale feel like my last breath said  
I'm so indigo

I'm so indigo  
I've been miserable

I'm so indigo  
Feelin' blue without you here  
I've been miserable  
Since the day you disappeared  
My love ever since you left  
Every exhale feel like my last breath said  
I'm so indigo
