

push start

Arden Jones

There's a scene up in my mind that's stayin' on rotation
Where I make friends with the world and we start elevatin'
Man, I get stuck up in a rush, I'm not a fan of patience
'Cause I've been cookin' every day and now I'm tired of waitin'
And there's a scene up in my mind that's stayin' on rotation
Where I make friends with the world and we start elevatin'

Arms won't fix these scars or heal my heart
Get in my car, we'll try again when I push start
I said your arms won't fix these scars or heal my heart (Ayy)
Get in my car, we'll try again when I push start (Yeah)

Now she upset, yeah, she heard 'bout what her friends say
Then complain to me, yeah, she whine like Wednesday
We cross T's, then dot I's, then the pen breaks
You know it's only gas all the time, we don't need them brakes
But then again a crash, it would end in quite a setback
Think about the past, all the things we'll never get back
It takes zig-zags just to find out where the end at
And I really hope that ain't coming up soon

I've made mistakes on the PCH, I'll heal in time
And I don't know why I thought that you'd put me in drive

I said your arms won't fix these scars or heal my heart
Get in my car, we'll try again when I push start
I said your arms won't fix these scars or heal my heart
Get in my car, we'll try again when I push start

Get in my car (Ra-da-
da), we'll try again when I push start (Ohh-oh)
Ra-da-da, ra-da-da
