Hold on, why you fuckin' with me?
I'm not here to waste your time
You've gotta be the worst I've seen
Go learn how to live your life
One day, you gon' wash away
I'm still gon' be on your mind
You're stuck on thoughts of yesterday
Meanwhile, I'ma be just fine

Yeah, he brought her friends to a house in LA, it's a party
Around big stars and they're driving Ferrari's
There's nothing like it in her hometown
And her parent's tryna say she gotta slow down
It's a new scene, and she's too excited
Mood swings (Mood swings)
'Cause she pulls all nighters
Wonder when she gonna stop this
Not enough, nothing's ever gonna top this

You're a goddamn rollercoaster
I flew out my seat
And I was over all the shit with you and me

Hold on, why you fuckin' with me?
I'm not here to waste your time
You've gotta be the worst I've seen
Go learn how to live your life
One day, you gon' wash away
I'm still gon' be on your mind
You're stuck on thoughts of yesterday
Meanwhile, I'ma be just fine

I'm working on my music, you been working on yourself
Say goodbye to the old days (Yeah, yeah, yeah)
I was hesitant to do it all by myself
Think it turned out okay (Yeah, yeah, yeah)
Locked eyes, long stare as she walkin' by
Yeah, she turned a cold day to a summer night
You the type gon' make me put the rest aside
I said stay with me, we gon' be alright

You're a goddamn rollercoaster
I flew out my seat
And I was over all the shit with you and me

Hold on, why you fuckin' with me?
I'm not here to waste your time
You've gotta be the worst I've seen
Go learn how to live your life
One day, you gon' wash away
I'm still gon' be on your mind
You're stuck on thoughts of yesterday
Meanwhile, I'ma be just fine
