

slow it down (u ain't gotta move like that)

Arden Jones

I'm wakin' up early and stayin' out late
And everything is fine now come to find out that
I made a mistake and I feel outta place
Yeah I'm always in a hurry, I gotta catch a break
Maybe I should calm down been a long round yeah
I made a mistake, oh I gotta get away
Yeah I gotta get a-

Oh, slow it down
You ain't gotta move like that
Oh, slow it down
You ain't gotta move like that

If I trip will you catch me fallin'
They in the mirror but they miles away
Why I'm sick and I'm still recordin'?
Someone tell me straight to my face
Someone tell me to catch a break
Now I'm feeling misunderstood
'Cause your mind ain't quite the same as mine
Tell me you ain't never felt this good
I've been movin' double time
I've been out here

I'm wakin' up early and stayin' out late
And everything is fine now come to find out that
I made a mistake and I feel outta place
Yeah I'm always in a hurry, I gotta catch a break
Maybe I should calm down been a long round yeah
I made a mistake, oh I gotta get away
Yeah I gotta get a-

Oh, slow it down
You ain't gotta move like that
Oh, slow it down
You ain't gotta move like that
