Breathe, you're gonna be fine
Everybody talks shit, they get toxic, let me clear your mind
No, they, they really don't know (They really don't know)
They don't know what's best and what direction that the world is
gonna go
But they don't know

Got nothin' left, oh, it don't feel right
Everybody wanna give advice
Ain't nobody got the answers in the end, in the end
Turn away, I said don't believe
Say they do and don't know what you need
Gotta tell me when it all starts makin' sense, makin' sense

So I said, "Why does everybody act solid till they lose their grip?"
It's like it's all for nothin'
I think we'll get everything we want and we'll be good, don't trip
We might be findin' somethin'
Just don't believe all the fiends and the phonies (Oh-oh)
You can lean on me when you're lonely (Oh-oh)
I ain't tryna say I got it all but I know it won't switch
I know it won't switch, ooh-woah-oh

Love, I hope you never fall for tricks, I hope you figure out
That you could be the one to rule the world, you don't need no
one else
And I know it gets scary when you're out there tryin' by yourself
And I know you don't need me, if you need me, I'll be there for
help

Got nothin' left, oh, it don't feel right
Everybody wanna give advice
Ain't nobody got the answers in the end, in the end
Turn away, I said don't believe
Say they do and don't know what you need
Gotta tell me when it all starts makin' sense, makin' sense

So I said, "Why does everybody act solid till they lose their grip?"
It's like it's all for nothin'
I think we'll get everything we want and we'll be good, don't trip
We might be findin' somethin'
Just don't believe all the fiends and the phonies (Oh-oh)
You can lean on me when you're lonely (Oh-oh)
