

## without me

Arden Jones

Far as I can tell, you never had better days  
And your sadness washed away, oh you're doin' well  
You're doin' we-e-ell  
Far as I can see you're walkin' with a bubbly face  
And you sure as hell look alot better without me  
Without me-e-e I might as well burn up and drift away  
'Cause the only thing I know how to do is wrong  
Wro-o-ong And I guess I'm not a good risk to take  
'Cause I never knew how to stay around for long

Hope you have fun with your Fancy cars, Livin' large  
I can tell you one thing that won't last at all  
Hope you know how to run when it gets hard  
Shit gets dark, watch your step  
'Cause you might just Trip and fall  
Oh, you gotta get up on your worst days  
This ain't the third grade  
This ain't the Hollywood Walk of Fame  
Can't care about What he say or her say  
Monday to Thursday  
It's all gonna feel the same  
Far as I can tell  
You never had better days  
And your sadness washed away, oh you're doin' well  
You're doin' we-e-ell

Far as I can see you're walkin' with a bubbly face  
And you sure as hell look a lot better without me  
Without me-e-e I might as well burn up and drift away  
'Cause the only thing I know how to do is wrong  
Wro-o-ong and I guess I'm not a good risk to take  
'Cause I never knew how to stay around for long  
Lo-o-ong
