

Cigarettes Of Ours

Ardhito Pramono

I'm sitting by the door and ready to explore
The feelings I have when you passed that store
Watch you look older
Sitting down with cigarettes of ours
Why'd you given all your money?
For such a precious story
My life is treated usual good then goodbye
To our memories
Sitting down with cigarettes of ours

Take it easy for a little while
You know he did everything good so far
Our fragmented love and cry
We suddenly turn into dust and die
I said it oooh...

If you're my only friend
Can you stay up on my pain?
The memories and the smell of she remains in my memories
Sitting down with cigarettes of ours...

Take it easy for a little while
You know he did everything good so far
Our fragmented love and cry
We suddenly turn into dust and die
I said it oooh...
Don't make it rains it's might for a little while
I said it oooh...

Take it easy for a little while
You know he did everything good so far
Our fragmented love and cry
We suddenly turn into dust and die
I said it oooh...
Don't make it rains it's might for a little while
I said it oooh...
