

Dreams

Ardhito Pramono

Dreams following me around
Dreaming of her, I find
Barely making a sound

And dreams, dreaming something so fun
She's brighter than the sun
Kills everything around

Her touch, her lips
She cuts and bleeds
Our life just spinning around
Around
Around
Around

And dreams
I know you'd wish she's not mine
Dream of your love and kind
In this crazy world, I wonder

And dreams
To fill hollow in your eye
Be loving you 'til I die
To know we are older than the time

Her touch, her lips
She cuts and she bleeds
Our life just spinning around
Around
Around
Around

Dreams, dreaming something so fun
She's brighter than the sun
Kills everything around
Around her
