

Friend Till The End

Ardhito Pramono

My hand's playing a tune
But my head's on the moon
I wish you love, my dear friends
You're my friends till the end

Playing with Mister Lou
We had a great time too
I wish you love, my dear friends
You're my friends till the end

Who's gonna hurt you?
Don't worry, I'll take the stab
You know I love you and you help me in my diet
I wish you love, my dear friends
You're my friends till the end

After what we've been through
I will be beside you
I wish you love, my dear friend
You're my friend till the end

Who's gonna hurt you?
Don't worry, I'll take the stab
You know I love you and you help me in my diet
I wish you love, my dear friend
You're my friends till the end

I wish you love, my dear friend
You're my friend till the end
