

Happy

Ardhito Pramono

Let the past be in memory
'Cause we're not living fantasy
I'll be your main man
But I don't know about you
Every time you close your eyes
Be compromised that I'll be around
Do you spend most of your time
Thinking about me too? Oh-oh-oh-oh
And I'm sorry
If we don't have the time

Spinning off our story
And I don't she come back to me, I'm moving on
Been waited for a fairy
But it doesn't fit to my story, know but I
I couldn't make you happy
I couldn't make you feel you can do anything, I
I should've make you happy
I should've make you happy, no

I should've make you happy, oh-oh

Spinning off our story
And I don't she come back to me, I'm moving on
Been waited for a fairy
But it doesn't fit to my story, know but I
I should've make you happy
Should've make you feel you can do anything, I
I should've make you happy
I should've make you happy
