

I Feel Love

Ardhito Pramono

I've loving the day
I've love every day
I've loving the day, and I don't need her
I've loving the day, and I need more love

I've loving the day
I've love every day
I've loving the day, and I don't need her
I've loving the day, and I need more love

When you were gone away
I feel much better anyway
Let's just go walk today
No need to worried I'll come ahead

I've loving the day
I've love every day
I've loving the day, and I don't need her
I've loving the day, and I need more love

When you were gone away
I feel much better anyway
Let's just go walk today
No need to worried I'll come ahead

I've loving the day
I've love every day
I've loving the day, and I don't need her
I've loving the day, and I need more love

I've loving the day, and I need more love
I've loving the day, and I need more love
I've loving the day, and I need more love

I've loving the day
I've love every day
I've loving the day, and I don't need her
I've loving the day, and I need more love

I've loving the day
I've love every day
I've loving the day, and I don't need her
I've loving the day, and I need more love

I've loving the day
I've love every day
I've loving the day, and I don't need her
I've loving the day, and I need more love
I've loving the day, and I need more love
I've loving the day, and I need more love
I've loving the day, and I need more love
