

Little Time For Love

Ardhito Pramono

If only you can turn back the time
Wouldn't you live behind?
Loving the memories
So much more I see
Seeing you at the party
That'll be so much a remedy

Mistakes is a lesson to learn
And now I let it burn
Is it my tendencies?
I begging you please
Craving for your sympathy
To be a man that more like me

Oh, give me little time for love
'Cause I've been lonely
You can count on me in every stars
You're my lovely
If I didn't show up tonight
Don't be sad
Because I love you, baby
Even this love will make me
Crazy

Don't tell me
That I have gone too far
But this just not who you are
Am I too frank for this?
I'm begging you please
Working hours to hours
How can I make you trust me?

Give me little time for love
'Cause I've been lonely
You can count on me in every stars
You're my lovely
If I didn't show up tonight
Don't be sad
Because I love you, baby
Even this love will make me
Crazy

Oh
Give me little time for love
'Cause I've been lonely
You can count on me in every stars
You're my lovely
If I didn't show up tonight
Don't be sad
Because I love you, baby
Even this love will make me, ooh

Oh, oh
You can count on me in every stars
You're my lovely
You're my lovely
If I didn't show up tonight

Don't be sad
Because I love you, baby
Even this love will make me
I love you, baby
Even this love will make me
Crazy
