

I Don't Know

Ardian Bujupi

I love, the times where we are, baby
And I don't now where we are gonna end up maybe

It is time to go, you're not the same
And this is really crazy
How we had much more
Your love is fading and you're acting shady, yeah

Or shoot me down, or kill me here
But I won't fall back in love, my dear
Ans if I'm wrong, so teach me right
But I don't need the kind of fight
Yeah yeah yeah
(I'm sick of you, I'm sick of you, so sick of loving you)

I lied, thought you were strong enough to handle
Over late, nights, without me, is that your heart is
Is to believe in me, now where we think I say is a lie
Instead of pushing me and way you should let our love fly

Or shoot me down, or kill me here
But I won't fall back in love, my dear
Ans if I'm wrong, so teach me right
But I don't need the kind of fight
Yeah yeah yeah
(I'm sick of you, I'm sick of you, so sick of loving you)

Long days, long nights, on stage, on flights
Lost world thinks you said you can deal with that
You're now long late, no time for insecurity
Thought we have it, but now I just don't now

I don't now, yeah yeah
I don't now, yeah
