I got infinite energy
And I'm going to the top, no one's stoppin' me
And if you wanna come with me
You better rise to the occasion, prepare for the invasion
Aim for the stars, there's no turning back
We gonna lay it on the line, got it, roger that
And if they put up a fight, oh, we can dance all night
I will never back down, you can count on that

People across the world, they'll be ready for you So many beautiful girls doing what you want to Can you handle the pressure being on that level? Paparazzi taking shots like Bacardi on the rocks

Rise to the top, rise, rise to the top Ain't nobody gonna stop, our shine at the top (hey) Turn up the levels, fire blazing, be incredible Rise, rise to the top, rise, rise to the top, oh

Ready for mission impossible
Tune in the satellite briefing, turn on the radio
Unstrap your seat belts, just lose control
And go bananas if you feel it, don't slip if you feel it
Aim for the stars, there's no turning back
We gonna lay it on the line, got it, roger that
I'm gonna head to a place where great just doesn't cut it
And the limit is just the beginning, ooh, yeah

People across the world, they'll be ready for you So many beautiful girls doing what you want to Can you handle the pressure being on that level? Paparazzi taking shots like Bacardi on the rocks

Rise to the top, rise, rise to the top Ain't nobody gonna stop, our shine at the top (hey) Turn up the levels, fire blazing, be incredible Rise, rise to the top, rise, rise to the top

Impatiently waiting I'm sitting here anticipating While everybody's moving and shaking And I'm not karma's arranging My time is now, I'm unleashing Letting this monster inside me You lose, you can't just deny me You either jump or you ride with me Impatiently waiting I'm sitting here anticipating While everybody's moving and shaking And I'm not karma's arranging My time is now, I'm unleashing Letting this monster inside me You lose, you can't just deny me You either jump or you ride with me

Rise to the top, rise, rise to the top Ain't nobody gonna stop, our shine at the top (hey) Turn up the levels, fire blazing, be incredible Rise, rise to the top, rise, rise to the top
