

# No Angel

AREA21

I'm so happy we met last night  
Oh, you need my car keys? Sure  
You need all my credit cards too? Sure, it's okay  
Here you go, baby  
Ayy, what are you doin'?

She's smart, not loyal  
I seen a lot of guys lose right before you  
My friend, she'll destroy you  
I can see that you're addicted to her poison

She wears a VS, but she no angel (What?)  
Not the kind of girl you wanna take home  
I think I love her  
I don't think she feel the same bro (But why?)  
She spendin' all your money on Rodeo  
She a bad girl and she ain't Riri  
But she know every famous guy you see on TV  
She been with all of the promoters in the city  
I think you mighta lost your mind just 'cause she pretty  
So stupid

I feel so lucky that she wants me  
Why can't you see that it is just the fame?  
Will she be gone if I lose my money?  
Look man, that's just the game

See, last night  
She got a random DM from a rich guy (What'd he say?)  
Well, this mornin', she was on the first flight (Where she go?)  
To Dubai (Oh no)  
Aim for the stars, seein' money in her eyes  
January, she is vibin' in Tulum  
Sexy pictures and you think it's just for you (They're just for me)  
Look here, her OnlyFans account will show them too  
This can't be true, I bought a ring for her  
Man, you such a fool

I feel so lucky that she wants me  
Why can't you see that it is just the fame?  
Will she be gone if I lose my money?  
I'm sorry, this is just a part of the game  
Some of these girls don't really want you  
Yeah, all they want is just to the taste the fame  
So don't say I didn't warn you  
Look man, that's just the game

I seen her backstage at every concert  
Flyin' private jet, but never tag a sponsor  
And she will leave you when you runnin' outta dollars  
She got McDonald's money, but she want the lobster

She's smart, not loyal  
I seen a lot of guys lose right before you  
My friend, she'll destroy you  
I can see that you're addicted to her poison
