

Own The Night

AREA21

So long kept the pain inside
Slow down, can't ignore the signs
Call out the time and place
Soon we're on the way

To save you from yourself in this dream
Cuz nothing is the way that it seems
Play it since it's all just a game
Yeah yeah yeah, cuz everything is fake and this world is insane

So we rolling down the street singing La La
Eh, we don't really care about the blah blah
It's iconic how we got it goin' nonstop
Cuz we own the night, yea we own the night
Woah, how come everything is moving slow mo?
Where we going after this I really don't know
So for now we in the party screaming Ayo!
Yeah we own the night
Yeah we own the night

So long since we felt this high
Lucid eyes and you know why
Call out the time and place
And soon we're on the way

To save you from yourself in this dream
Cuz nothing is the way that it seems
Play it since it's all just a game
Yeah yeah yeah, cuz everything is fake and this world is insane

So we rolling down the street singing La La
Eh, we don't really care about the blah blah
It's iconic how we got it goin' nonstop
Cuz we own the night, yea we own the night
Woah, how come everything is moving slow mo?
Where we going after this I really don't know
So for now we in the party screaming Ayo!
Yeah we own the night
Yeah we own the night

Never stop!
Yeah, we gonna keep it raging
Feeling so good, we don't even have to chase it
Came a long way from recording in a basement
Now we got the fire it's impossible to tame me
Seen it all moving through so many changes
Told us keep waiting but we running out of patience
Nothing ever given, got a shot we had to take it
Look up in the sky and say thank you that we made it
