

# One Last Au Revoir

Arena

Tapping the table fourteen times  
Setting the cutlery down in line  
Don't leave the house til the gas is checked  
And checked and checked and checked and checked

Keeping those curtains tightly shut - or i'll be back to close  
them up  
In the middle of the night middle of the night - just to saniti  
se my mind  
Then i stop for a moment - time to question this life so  
Where did i go wrong - i let this cruel obsession thrive

So here we are - just one last au revoir  
I counted out the goodbyes and the fare thee wells so far

Keep the invisible rope as straight as a rope can ever be  
If you walk around a lamp-post - then walk back to keep it free  
Don't tie it up with people; you've got to hold them to the rig  
ht  
And never let the rope never let the rope - get too tangled or  
too tight

Then I stop for a moment - oh the freedom I have found  
I'm back in control - these prison bars are melting down

So here we are - just one last au revoir  
I counted out the goodbyes and the fare thee wells so far  
So here we are - just one last au revoir

So here we are - just one last au revoir  
I counted out the goodbyes and the fare thee wells so far  
So here we are - just one last au revoir  
I've thrown away the numbers; we were rivals from the start

So here we are - just one last au revoir  
I'm free of all those bindings i just blew them apart!  
Just one last au revoir - Just one last au Revoir  
Just one last au revoir - just one last au Revoir
