

I Needed You Baby

Aretha Franklin

You don't know the changes
You put me through
Always strong to show me the wrong
You laughed at me so long
And many times
I fought for your brother man
And what you were tryna do I wanna know
From you to me, I could see right through you
You were just another dude

Ooh when I needed you (I needed you baby)
Ooh I needed you (I needed you baby)
Ooh...

So depressed I must confess
I nearly felt misused
Love ain't never left me in such a mess
I found myself confused
Well, we battled so long
We were really at it strong
Just left everything in the world
Another time we can't get along baby
I'm just a lonely girl

Oh when I needed you! (I needed you baby)
Hey! When I wanna need you (I needed you baby)
Needed you needed you needed you (I needed you baby)
Ooh I needed you baby (I needed you baby)
Hey...

They was a real real love
It is true!
Yes, it is!
Always a, a big thing going on, baby!
Me and you! Yeah! Yeah yeah!
You quit trying
And you know what?
Love come dying

(And I needed) And I needed
(And I needed) And I needed
(And I needed) And I cried baby
(And I needed) And I needed
(And I needed) And I loved you baby
(And I needed) Oh I needed
(And I needed) Yeah

And I needed you surely
I needed you baby
I have to say it say it say it

All the time I couldn't find my mind
My love for you so crazy
Ooh darlin'
What's the use
To tell you the truth
I knew you would always betray me

Yes I did
Many times I fought for your brother man
And what you were tryna do
From you to me, I could see right through you
You were just another dude

Oh I needed you
(I need you baby)
Oh I needed you
(I needed you baby)
Needed you needed you needed you
(I needed you baby)
Oh I needed you baby
(I needed you baby)
...
