

# Money Won't Change You

Aretha Franklin

Told my darling that I had to go  
It's your body, I don't care no more  
Although you had me, time to get along

Money won't change you, money won't change you...  
But time will take your own do

Then you know, how to be treated  
Hold me, baby, tell the world  
That you're my woman, my only girl

Money won't change you, money won't change you...  
But time will take your own do  
I know you're happy  
To know you're happy, and to know you're gone  
Money won't change you  
Money won't change you, mama  
I said, money won't change you  
But time will take you own

I said, put a smile as good as gold  
But that smile now can't be sold  
You said, baby, that you had to go  
Back to somebody, I don't care no more  
Told your friends I was a fool  
The trouble's, woman, that you've got to go through  
Other lover won't take me home  
I have a...  
Even in the street, even in the car too  
Mashed potatoes and boogaloo  
C'mon baby and let yourself go...  
It's your body, I don't care no more  
C'mon baby, c'mon baby, everybody, everybody  
Need your hand, need your hand  
Let me tell you I, I, I...  
I'm down so long...
