

Push

Aretha Franklin

Heavy traffic in the street, stay on your toes
Anybody that you meet can leave you exposed, yeah exposed
But it's me that you'll see whenever, whenever you arrive, yeah
I'm the one to set you free to keep you alive

You got to push harder to make it through the night
It's just a little farther until we see the light
So hold on tight and push

Secret passage in the dark open for you
You've been waiting to embark time to go through
When you drown in the sound of a heartbeat everywhere, oh everywhere
Better break for higher ground, high as you dare
High as you dare

You got to push harder to make it through the night
It's just a little farther until we see the light
So hold on tight
Push

When you're lost at sea, just remember, remember what I'm saying
You can follow me all the way home

Push it hard
Keep on pushing, yeah
Keep on pushing, baby
Keep on pushing, yeah
Push!
Push!
Push!
Yeah!

You got to push harder to make it through the night
It's just a little farther until we see the light
So hold on tight
Push

Push!

We got to
We gotta push it yeah
Right now
We can't get over
We can't get over
Yeah... right now
Keep on pushing
Pushing harder
Oh, let me help you
Make it through the night
Pushing harder
Pushing harder
Pushing harder
Come on, push me push me baby
Pushing harder...
