Dance In The Smoke

Argent

We will light it and dance in the smoke
Every brand we'll tie somebody's worries to it
We will burn it and dance in the smoke
I recall it was too tall
To see the flames grow high
But on tiptoe
The flames would grow
And burn into the sky
We will light a giant burning fire tonight
We will light it and dance in the smoke
Every brand we'll tie somebody's worries to it
We will burn it and dance in the smoke
