

tLook back into the cold unbroken day
Tears of silence to call me far away
Love, I see you standing there so fair

A growing shadow beneath the southern sun
Tells of trouble and warns of change to come
I must leave you and this land so fair

Far away (I must go)
Far away (To and so)
Far away (I must go)
Far away...

I walk the streets that I used to see, so fair (so fair)
No troubles would worry me, so fair (so fair)
They're so fair...

I think of days that we both would share (would share)
Wine and freedom and your care (your care)
They were so fair
They're so fair...

Far away (I must go)
Far away (To and so)
Far away (I must go)
Far away...
