

Disappear

Argy Bary

Tell me no lies, I'll accept no crap,
Who the hell are you looking at?
Don't talk to me, just leave me alone
And don't invade my telephone
Why are you always pestering me?
Why can't you just leave me be?
Don't you come calling round here,
I want you to disappear

Disappear

Don't write to me coz I won't reply
And please don't call to ask me why
You had a warning now I mean it this time
You went too far and stepped over the line
I never want to see your face,
Keep away coz you're in disgrace
So don't you come calling round here
I want you to disappear

I won't change my mind and I'll never forget
I'll get revenge and have no regrets
So don't come knocking on my door,
Coz if you do you'll be on the floor
I hope we never see you again,
That's what you get for causing so much pain
So don't you come calling round here
I want you to disappear
