## What About Me

**Argy Bargy** 

Government spin tells you what to believe Hidden agendas designed to deceive Dancing to the tune of the Islington beat Myths perpetrated by the Guardian elite

Silent conspiracy, eternal shame Another scapegoat to shoulder the blame Truth well hidden in a bureaucratic maze Out of the limelight and the public gaze

I've gotta, you've gotta, we've gotta stand up and fight now I've gotta, you've gotta, we've gotta stop 'em now

What About Me? Who defends my liberties What About Me? What About You? Who decides what you're gonna do? What About You?

Self preservation's the main policy Power corrupts and breeds hypocricy Manipulate the press to further the cause Encouraged by redundant archaic laws

Elected to speak for the man in the street Empty promises safeguard your seat The honourable member is a total disgrace A matter of time before you fall from grace

I've gotta, you've gotta, we've gotta stand up and fight now I've gotta, you've gotta, we've gotta stop 'em now
