

Cursed

Ari Abdul

Sorry
I've been floating out my body
It scares me
How it's all just temporary

Don't worry
There's nothing wrong
My souls just dirty
It's been so long
Reflection's blurry
Can't hold on

I'm losing myself
Don't know how
I can't help but let you down
This is how you figure out

I'm cursed

Save me
I know the angels, they won't take me
Lately
All our memories are fading

Don't worry
There's nothing wrong
My soul's just dirty
It's been so long
Reflection's blurry
Can't hold on

I'm losing myself
Don't know how
I can't help but let you down
This is how you figure out

I'm cursed
I'm cursed
I'm cursed
I'm cursed

Don't worry
There's nothing wrong
My soul's just dirty
It's been so long
Reflection's blurry
Can't hold on

I'm losing myself
Don't know how
I can't help but let you down
This is how you figure out
