

# HUSH

Ari Abdul

Lately  
I been watching you for awhile  
Pretty daydream  
Crazy  
It's such a vicious cycle  
Can't escape me  
Can you see behind my smile  
My heart racing  
Baby

You really should be scared to trust me  
Don't worry this won't hurt

Darling if you could just hush  
Your mouth's been moving too much  
And I can't sleep  
The voices in my head, they keep me up  
Darling if you could just hush  
You're best when you just shut up  
Hate having visions of my hands  
Washing away your blood

Lovely  
You should be put on a leash  
It's a luxury  
Honey  
To have a minute more with me  
If you're lucky  
Gonna haunt you peacefully  
And keep you company  
Keep you company

You really should be scared to trust me  
Don't worry this won't hurt

Darling if you could just hush  
Your mouth's been moving too much  
And I can't sleep  
The voices in my head, they keep me up  
Darling if you could just hush  
You're best when you just shut up  
Hate having visions of my hands  
Washing away your blood

Darling if you could just  
Hush

Darling if you could just  
Hush

Darling if you could just  
Hush  
Darling if you could just hush  
Your mouth's been moving too much  
And I can't sleep  
The voices in my head, they keep me up

Darling if you could just hush  
You're best when you just shut up  
Hate having visions of my hands  
Washing away your blood

Darling if you could just  
Hush

Darling if you could just  
Hush

Darling if you could just  
Hush
