

# Taste

Ari Abdul

I want a taste of you

Baby I'd burn this world for you  
And if you leave I'm coming too  
You feel so cold I'm turning blue  
Where'd you go, I wish I knew

Come close  
Want you to take  
My soul

I want a taste of you  
You tear my heart in two  
Why do I waste my youth  
Come back, I always do

I hear you whispering my name  
You're moving on but I can't change  
It feels intoxicating  
When you look at me that way

Come close  
Want you to take  
My soul

I want a taste of you  
You tear my heart in two  
Why do I waste my youth  
Come back, I always do

I'm begging you  
Untie this noose  
Want your hands around my neck  
I'm begging you  
Come be my muse  
You're all that I have left

I want a taste of you  
You tear my heart in two  
Why do I waste my youth  
Come back I always do

I want a taste of you  
You tear my heart in two  
Why do I waste my youth  
Come back I always do
