

# You

Ari Abdul

I can feel your energy from the other side  
I just need you close to me  
So baby don't hide  
Let me inside

You're so divine  
You're in your prime  
It's love at first sight  
Won't be satisfied  
'Til I know you're mine

You could be the  
You could be the  
One  
You could be the  
You could be the  
One  
You could be the bullet to my gun  
You could be the  
You could be the  
One

Say your name like a ritual  
Your body is something spiritual  
Oh no  
Don't you know you could save my soul  
Feelin' your power head to toe  
Feelin' your body head to toe

You're so divine  
You're in your prime  
It's love at first sight  
Won't be satisfied  
'Til I know you're mine

You could be the  
You could be the  
One  
You could be the  
You could be the  
One  
You could be the bullet to my gun  
You could be the  
You could be the  
One

You could be the  
You could be the  
One  
You could be the  
You could be the  
One  
You could be the bullet to my gun  
You could be the  
You could be the  
One
