Learn

That we can say no We don't have to go When are we going to learn? When are we going to learn? That to give them hell Means they'll further gel When are we going, going to learn?

Oh, stumbling feet Don't you ever wonder?

That the holes we drill Are too deep to fill When are we going, going to learn?

Oh, stumbling feet Go, before it's too late

Cause when you choose to kill We all foot the bill When are we going to learn?
