

Less

Ari Hest

Less is less it isn't nothing somehow we'll recover
Everybody pitching in we'll help out one another
And before we know it, the garden will be growing, a new breeze
will be blowing

Less is more than many other people out there struggling
Some don't ever find an end to holes in need of plugging
Do not play the victim, show me some conviction, and we'll get
this sorted out

Oh tonight I feel so grateful
That you are all here with me
And that we're all healthy
Don't forget how lucky we are

Less is less we've got enough to get us through December
I'll go out and find new work as soon as morning comes
And before we know it, the garden will be growing
Good times will come back around
And before we know it, the garden will be growing
Good times will come back around
