

Old Pros

Ari Hest

Hello to you again
It's your long lost more than friend

We'll reveal some little things
There's a whole lot more we won't dare show
That's how it goes
For us old pros

So much that we could say
Don't wish to complicate
We'd probably open up old wounds
From nights under full moons

We're standing in the here and now
And that was all a long, long time ago
How you still glow
To this old pro

The movies playback when they choose
It's out of my control
And though these days I'm doin' alright
I'm challenged to feel whole

So soon we'll say goodbye
Surrender to a sigh
Maybe we'll speak again
Maybe this will be the last time

These days move slow
I know you know
That's how it goes
For us old pros
For us old pros
